

RV Robotics Team

Rancocas Valley Regional High School

The success of any school organization is dependent upon a clear set of understandings between its members and the school. In an attempt to clarify information about the team and its workings, we have developed a team handbook which can be downloaded for review from our team website: www.rvr87.org Go to the download page and download the team handbook.

The team handbook and the website contain an overview of many different aspects of the team. It is important that each member and parent understand many of the things that are required by the school. Close attention needs to be given to the area concerning traveling with the team. It is the responsibility of each student to maintain their own academic, discipline and attendance eligibility status at the school.

Another area of interest to all parents has always been the costs involved in traveling with the team. All local competitions are free to all team members. There is one trip each year that involves staying in a hotel over several nights. These and other related costs are the responsibility of the individual team member. This trip is usually the highlight of the season. However, the students are not required to attend our 'away' trip.

There will be a schedule for payments for those attending the away trip. One of those dates is "the point of no return". This is the date at which no refunds are possible. Once payments are made to our vendors (hotels, busses, etc.) money can not be refunded. It is imperative that all team members maintain their eligibility status as determined by the new school policy. No exceptions can be made in regards to the non-refundable date.

Should you have any questions please be sure to attend our parent meeting.

I agree to all information contained in the RV Robotics Team Handbook and on this letter.
